

# MIRE

Multi-Industry Recommendation Engine

Starting at  
**\$4,000 USD/Month\***  
Plus initial start-up fees

## Your Ai-powered Assistant

Automate your ability to respond to RFPs

### Business Challenge

For IT solution providers, responding to RFPs is complex, uncertain and resource-intensive, often resulting in missed opportunities or wasted time.

### Business Benefits

**What if Ai could help reduce the time, effort and cost by up to 50%-60%?**

- > Increased capacity for more RFPs
- > Enhanced Proposal Quality
- > Stronger Team Efficiency

### Business Value

Leverage Ai-powered automation to increase operational revenue and reduce costs.

## MIRE - What is it?

- ☒ Automatically retrieves RFPs from marketplaces
- ☒ Understands the intents and RFP requirements
- ☒ Recommends the optimal solution mix
- ☒ Answers questions and composes the RFP responses

## Elevate your game with IBM

MIRE is built on IBM's industry-leading watsonx and hybrid-cloud automation technologies. These platforms continue to evolve and improve.

**Do you sell IBM software and regularly respond to RFPs? If yes, come join the SIA family!**

1000 De la Gauchetière St West, Suite 3960,  
Montreal, Quebec, H3B 4W5

# MIRE - How does it work?

- 1 MIRE leverages agentic AI and workflow automation to orchestrate the efficient distribution of tasks to the appropriate roles in the organization
- 2 MIRE employs digital workers to understand the RFP, recommends the best products for the requirements, answers the questions and composes the response.
- 3 MIRE gets subject matter experts involved to review and approve the tasks completed by the digital workers.
